PROFILE

I'm a Front-End / WordPress Elementor Developer focused on building clean, responsive, and user-friendly websites. I specialize in turning design concepts into fully functional pages that look great and perform well across all devices, including desktop, tablet, and mobile. My work centers on creating smooth user experiences through well-structured layouts, consistent styling, and attention to detail in every section of a website.

EMPLOYMENT HISTORY

❖ **Front-End Developer, OPT.CO.NZ** Jul 2025 — Aug 2025
Timaru
Front-End Developer for OPT Co NZ and Heartland Containers. Built and maintained website pages, implemented responsive designs, and ensured mobile-friendly layouts. Worked with HTML, CSS, and WordPress page builders to create clean, consistent, and user-friendly interfaces.

❖ **Elementor Front-End Developer, School Of Self Image** Mar 2026 — Apr 2026
Carolina, Charlotte
Worked as a Front-End / Elementor Developer for the School of Self-Image, an online personal development and coaching platform focused on mindset, lifestyle, and self-image transformation. The website delivers membership-based content, classes, and resources designed to help women improve confidence, style, and personal growth. My responsibilities included building and maintaining website pages using Elementor, implementing responsive layouts, and ensuring consistent design across desktop, tablet, and mobile devices. I also handled UI adjustments, spacing refinements, and content updates to support a clean, user-friendly experience.
